29 December 1983

MEMORANDUM FOR: DCI

THROUGH: DDCI

FROM:

25X1

Chief, Community Counterintelligence Staff/IC Staff

SUBJECT: Recommendations on 1983 Hostile Threat Assessment

Here are the replies from Judge Webster and General Stilwell on the proposed recommendations for the 1983 Threat Assessment. We appear to have some disparate views with respect to how we solve the problems. Although we received no response from the community when we asked for recommendations, they certainly have developed some positive opinions on our proposals. A copy of the recommendations is forwarded for your reference.

Obviously, there is work to be done to resolve agency differences with respect to a re-examination of the hostile presence problem. The State Department has recommended that this issue continue to be reviewed by the IG(CI), rather than be addressed by the SIG(I).

Your thoughts would be appreciated.
